Subject: RE: CA725 for Navy- NorthropGrumman

Hi Carol,

It looks like we should be able to meet the deadline, I have asked Henry to complete the facility information part of the form, and I will go from there.

Steven Karpinski
Bureau of Environmental Exposure Investigation
New York State Department of Health
Empire State Plaza
Corning Tower, Room 1787
Albany, New York

Subject: CA725 for Navy- NorthropGrumman

Hi Steve - Toward the end of our discussion on Monday, I mentioned that I would contact you again today to verify whether we could include Navy – Northrop Grumman, Bethpage project as a commitment for completing the CA725 determination (Human Exposure Currently Under Control). You had noted that you wanted to double-check with your management. I figured I would drop you this line to find out for sure. Please get back to me when you have the chance.

Thanks,
-Carol-
